Biography

Françoise Chombar is Chairwoman and co-founder of Melexis. She has been the CEO of Melexis for 18 years. She has held executive positions with a number of tech companies. Ms Chombar is currently member of the Board of Umicore, the Board of Soitec and the advisory Board to Byteflies.

She is equally president of the STEM platform, an advisory board to the Flemish government, aiming to encourage young people to pursue a Science, Technology, Engineering or Mathematics education.

Françoise Chombar's long-term commitment to actively advocating more STEM and more gender balance is driven by the profound belief in their positive societal impact.

She is the recipient of numerous awards including the Vlerick Award, the Global Prize for Women Entrepreneurs of BNP Paribas, ICT-Personality of the Year by Datanews, Science Fellowship at the VUB, Honorary Award by the Flemish Community, the Computable Lifetime Achievement Award and a Honorary Award by the KUL.

Ms Chombar holds a Master's Degree in interpreting (Dutch, English and Spanish) from Ghent University.

Introduction to SEMI Sustainability Initiative

J. Amano Sr Director, Int'l Standards and EHSS SEMI, Standards and EHSS, Milpitas, United States

Abstract

In response to Member demands, SEMI has initiated a Sustainability Initiative to find a common way to move forward on issues facing the industry, including:

- Increasing pressure from stakeholders (investors, financial institutions, NGOs, governments/regulators)
- Attracting future generations to work in the industry and retaining current workforce
- The need for collaboration in identifying and developing sustainability-enabling technologies (decarbonization, water, energy, etc.)
- Showing leadership proving that the industry is part of the solution.

This presentation will introduce the SEMI Sustainability Initiative and current efforts underway, and show how all SEMI Members can get involved.

Biography

James Amano is Senior Director, International Standards & Environment, Health, Safety, and Sustainability at SEMI. Prior to joining SEMI, he worked as the Silicon Valley sales engineer for Matsusada Precision, and as a trade specialist for the Japan External Trade Organization (JETRO). He holds degrees in Economics and Environmental Conservation from the University of Colorado at Boulder.
