

SEMICON® EUROPA

NOV 15-18, 2022 | MUNICH, GERMANY

The Future of Work

Opening Remarks

C. Melvin
Senior Director of Business Development and
Operations SEMI Europe
SEMI Europe, Berlin, Germany

Abstract

Opening Remarks

Biography

Cassandra joined SEMI Europe in 2018 to lead its operations, business development and strategic initiatives related to diversity and inclusion. In this role she is responsible for leading a culturally diverse team, enhancing member value, and directing operations for optimized financial performance. Prior to joining SEMI, she held the position Global Product Manager at Atotech for its semiconductor division. She began her career at the SUNY Polytechnic Institute as a Business Manager focused on technical programs for chemistry and equipment manufacturers and held project management roles in clean room operations and IT. Cassandra's written work has been published in leading technical magazines and presented at conferences globally. She holds a BS in Business Management, and Minor in Neuropsychology from Rensselaer Polytechnic Institute.

The Work Force Supply-Chain Crunch and Need for a Diverse and Innovative Workforce Development.

M. Williams-Vaden
Deputy Director
SEMI Foundation, Milpitas, United States of
America

Abstract

Shari Liss, Executive Director of the SEMI Foundation, will share information on the organization's workforce development and diversity, equity, and inclusion initiatives designed to expand and diversify the global talent pipeline. The Foundation's work includes the Industry Image and Awareness Campaign, including a powerful career portal (careers.semi.org) and a PBS documentary about the microelectronics industry; VetWorks, which helps companies attract talented individuals transitioning out of the military; High Tech U, which brings immersive STEM experiences to students worldwide; the SEMI Career and Apprenticeship Network (SCAN) which helps companies grow their own workforce through apprenticeships; SEMI University, designed to help train and upskill talent; the American Semiconductor Academy, an effort to unite higher education around microelectronics training and learning; and the Foundation's extensive diversity, equity, and inclusion (DEI) programs, events, and tools. Learn more about Shari and the Foundation's initiatives at <https://www.semi.org/en/workforce-development/semi-foundation>.

Biography

Shari Liss has more than 25 years of experience supporting education, career awareness and workforce development throughout the technology industry. She is currently the Executive Director of the SEMI Foundation. The foundation focuses on Workforce Development programs and Diversity, Equity and Inclusion initiatives supporting more than 2500 companies within the microelectronics industry.

She was formerly the CEO of Ignited, one of the nation's most successful STEM teacher professional development organizations. Their work connected companies to classrooms throughout Silicon Valley and gave over 4,000 teachers and 3.2 million students more insights into the skills and experiences needed to succeed in STEM-oriented professions and companies.

Prior to Ignited, Shari was a teacher and curriculum developer, serving in a variety of positions with a focus on mathematics and at-risk students. She has developed an alternative school on the East Coast serving at-risk high school students, created curriculum for NASA and established a mathematics program for both gifted and challenged students in the San Francisco Bay Area.

Accelerating Gender Balance in the Semiconductor Talent Pool

F. Chombar
Chairwoman
Melexis, Ypres, Belgium

Abstract

Coming soon

Biography

Françoise Chombar is Chairwoman and co-founder of Melexis. She served as the CEO of Melexis for 18 years (from 2003 to 2021). She is currently a member of the Board of Umicore, the Board of Soitec, Chairwoman of the Board of BioRICS and member of the advisory Board to Byteflies. As of May 1 2022 , she has joined the Board of Antwerp Management School. She is equally president of the STEM platform, an advisory board to the Flemish government, aiming to encourage young people to pursue a Science, Technology, Engineering, or Mathematics education. Françoise Chombar's long-term commitment to actively advocating more STEM and more gender balance is driven by the profound belief in their positive societal impact. She is the recipient of numerous awards including the Vlerick Award, the Global Prize for Women Entrepreneurs of BNP Paribas, ICT-Personality of the Year by Dataneuws, Science Fellowship at the VUB, Honorary Award by the Flemish Community, the Computable Lifetime Achievement Award and a Honorary Award by the KUL. Ms. Chombar holds a Master's Degree in interpreting (Dutch, English, and Spanish) from Ghent University.

J. Clarke
VP People & Culture
Edwards Vacuum, Burgess Hill, United Kingdom

Abstract

Coming Soon

Biography

Jill held various senior HR roles - global and local business partnering of multiple functions, project roles and recruitment. Currently as VP People and Culture of the Semiconductor Division at Edwards she leads programmes on organizational changes, defines the right structure and drives employee engagement to build a culture where people will grow and thrive and enable improved business performance.

Panelist

P. Matthes
Head of Global Human Resources, Semiconductor
Materials
Merck KGaA, Electronics, Darmstadt, Germany

Abstract

not applicable

Biography

In Merck since 2010. Since October 2019, Executive Director, Global Head of Human Resources for Semiconductor Materials Business Unit at : Merck Group, Darmstadt, Germany. Leadership of all HR topics for a global business of over 1,5 bn EUR sales and over 4,000 employees. Leads HR workstream for "Level Up Growth Program"; ambition to hire 1000 additional FTEs in 3 years and building digital capability in U.S., Taiwan, Korea & China. Lead post-merger organizational integration of Versum Materials into Merck. Lead the organizational response to COVID 19 in terms of virtual/home office as well as concepts for manufacturing and R&D.

Panelist

M. Aguja
Project Technician
Edwards Vacuum, Leixlip, Ireland

Abstract

Not Applicable

Biography

My name is Mark Aguja. I am a current employee within Edwards Vacuum in Ireland. I am 24 years old and joined the company in June of 2022. As a representative of both the Edwards Vacuum team, here in Ireland, and as a representative of the Generation Z speaker in this session, I am honoured and eager to discuss the topic of 'Future of Work' with everyone involved and to hear from the other individuals representing the other generations and their insights on the given topic.

C. Haubenwallner
Student Assistant
Graz University of Technology, Office of Student
Counselling, Graz, Austria

Abstract

Participation in a panel discussion.
Date: 15/11/2002, Time: 16:10-17:10
Location: Messe München

We suppose no special abstract is needed, as Clara is participating in the panel discussion.

Biography

Clara Haubenwallner is studying Biomedical Engineering at TU Graz. Since 2018, she has been supporting the Institute of Electronics at TU Graz as a student assistant both in teaching and in the creation of digital teaching formats, e.g. ElectrONiX MOOC on iMooX.at as part of the METIS project. In addition, she has experience in the field of talent management through her part-time jobs in the Office for Equal Opportunities and in the Office of Student Counselling.

Transition from the Chip and Talent Shortages to Shaping the Next Generation Skills & Talent Building

M. Helle
CEO & Co-founder
Summa Semiconductor Oy, Espoo, Finland

Abstract

Coming soon

Biography

Dr. Meri Helle is the CEO and Co-founder of Summa Semiconductor Oy.

Summa Semiconductor is a fully independent company providing semiconductor manufacturing services with the focus on specialized semiconductor devices tailored to customer needs – bridging the gap from prototyping to microelectronics and photonics manufacturing – providing a full pathway from R&D, prototyping and pilot production to high-volume manufacturing. Summa is an active partner in the microelectronics ecosystem and support our customers to find the right partners and talent to meet their needs.

Summa is also partner in Erasmus+ METIS consortium 2019-2023 - MicroElectronics Training Industry and Skills – <https://www.metis4skills.eu/>

METIS is bridging the skills gap in the microelectronics sector for a more competitive Europe. The Sector Skills Alliance, co-funded by the Erasmus+ Programme, brings together a consortium of 19 key partners to develop skills intelligence deliver the METIS curriculum and training and promote microelectronics as a career choice.

Before founding Summa, Dr. Helle worked for silicon wafer manufacturing company Okmetic. At Okmetic she held a Process Engineer position (2011-2012) at Okmetic's silicon wafer manufacturing fab in Finland and 2012-2015 she held a Technical Customer Support Engineer position at Okmetic's sales team with main responsibilities in Taiwan, Singapore and Malaysia. Prior joining Okmetic, Dr. Helle was also part of Nokia Research Center's graphene research team (2010-2011).

After finishing MSc (2001) and PhD (2006) in quantum physics in Aalto University, Finland, Ms. Helle continued her academic career in Low Temperature Laboratory, Aalto University as Academy of Finland Post-Doctoral Researcher Scientist (2006-2010). Her research consisted of superconducting nano electronics device fabrication in the Micronova cleanrooms and cryogenic-temperature measurements of quantum phenomena in superconducting nano-devices.

Selected publications:

Electronic refrigeration at the quantum limit, Physical Review Letters 102, 200801 (2009).
