European Chips Skills Academy

V. Cummings
Senior Manager, Workforce Development and EU
Projects
Semi Europe, Brussels, Belgium

Abstract

This session will present the results from the first year of the European Chips Skills Academy, a European project funded under the Erasmus+ program to address the talent gap in the semiconductor industry. In particular, it will highlight the ECS Summer School, Educational Leaders, ECSA Student Forum, as well as the courses and career resources available on the Academy's e-learning platform.

European Chips Diversity Alliance

R. Gani
Senior Manager, Diversity and Workforce
Development
SEMI Europe, Berlin, Germany

Abstract

The European Chips Diversity Alliance is a consortium of 11 partners from 6 countries aimed at promoting diversity, equity, and inclusion (DEI) within the European semiconductor industry. The alliance brings together various stakeholders, including industry leaders and academic institutions to address the missing talent and DEI challenges prevalent in the sector. By providing trainings, operational tools, reports, and engagement programs, the alliance seeks to enhance innovation and to improve workplace diversity and inclusion.

Biography

Reviliani joined SEMI Europe in 2019. In her current role as Senior Manager of Diversity and Workforce Development at SEMI Europe, she coordinates the implementation of the EU Erasmus+ project, European Chips Diversity Alliance, with a mission to lower barriers for under-represented groups in the European semiconductor industry through data, training, and engagement programs. She has over 10 years of experience managing various projects across government and public sectors in Jakarta, Paris, and Berlin. Reviliani holds a Master's Degree in Tourism Project from Lille University.
